OHIO PROHIBITIONISTS.

A State Ticket Put on a Strongly Pronounced Platform.

The Majority in the Republican Legislature Denounced—"The Prohibition of Intoxicating Liquors, Yes! Will be on Their Ballots."

COLUMBUS, O., June 15.—The Prohibitionists met yesterday morning at 10 o'clock, and a temporary organization was constituted as follows: President, H. S. Canfield, of Richland county; Vice Presidents, Rev. C. S. Work, of Fairfield, and C. S. Tambling, of Lorain; Secretaries, Miss Kate L. Kelsey, of Lorain county; Isaac C. Hull, of Guensey, and J. H. Condit, of Wood.

It was concluded to have prayer, and the Rev. Wm. McKee was called upon to offer the divine blessing. After prayer a collection was taken up to send greeting to the Prohibition Convention of Maine now in session.

The delegates then separated by districts, and named members of the Committees on Permanent Organization, Resolutions, and Nominations. These selections were reported to an enrollment committee, by which the committees were presented to the convention. This proceeding consumed much time, and was very tedious, a characteristic feature of prohibition and temperance conventions generally.

The committee on resolutions consisted of J. F. Hoy, First District; H. T. Ogden, Second District; J. H. Blackford, Third District; B. F. Howard, Fourth District; Thos. Hopley, Fifth District; A. Philo, Sixth District; E. A. Palmer, Seventh District; Wm. Pollock, Eighth District; Wm. Penn, Ninth District; D. N. Trobridge, Tenth District; Thos. E. Peden, Eleventh District; Rev. J. Smith, Twelfth District; G. C. Brown, Thirteenth District; G. D. Stewart, Fourteenth District; J. N. Myers, Fifteenth District; George Richey, Sixteenth District; D. W. Dorman, Nineteenth District; C. M. Johnson, Twentieth District; D. W. Gage, Twenty-first District.

The convention adjourned at 12 until 1:30 o'clock.

This afternoon a permanent organization was reported by the committee as follows:

President, H. L. Canfield; Vice Presidents, J. Condit, C. L. Tambling, C. L. Work, Matthew Stewart and W. J. Kirkendall; Secretaries, Miss Kate L. Kelsey, J. J. Ashurst and Rev. G. L. Travis.

The following resolutions were submitted by the committee on resolutions:

Resolved, That we repeat and affirm the platforms of principles and measures adopted by the National Convention of the Prohibition Home Protection party held in Chicago August 24, 1882, and by the several State conventions of the prohibition reform party of Ohio.

Resolved, That we denounce the doctrine of personal liberty in relation to the liquor crime, declared by the Democratic party of Ohio, as subverting the foundations of free government, and tending only to universal corruption, anarchy and despotism.

Resolved, That we condemn the policy of the Republican party (avowed by its platform, adopted at its recent State convention and by acts of the present Legislature, with its two-thirds Republican majority, in the Pond and Scott laws, and the first proposition of the Constitutional amendment) in making the State of Ohio a partner, by taxation, in the perpetration and promotion of the great crime or crimes, and in repealing these with law for the protection of the Sabbath, and the prohibitory law enacted over twenty-nine years ago for the suppression of dram-shops for the sale of distilled liquors and foreign wines, that thus larger revenues of blood may accrue from this infamous co-partnership.

Resolved, That we condemn the policy of the republican majority in this legislature in submitting to the people the amendment of the constitution which forces into an unnatural and corrupt combination the hostile principles of license, with taxation, and the total prohibition of the liquor crime, by a bargain and sale in that body between the professed friends of virtue on one side and the servitors of crime on the other.

Resolved, That the present constitution gives plenary power to the legislature to prohibit the traffic in intoxicating liquor as beverage; yet we favor the adoption of the second proposition of the amendment to the Constitution, notwithstanding the unnecessary and unjust provision couched therewith, to repeal the anti-license clause in the present Constitution, it being the only way given where the electors can express at the ballot box their demand for the prohibition of the liquor crime, except by the election of the friends of prohibition to the Legislature.

Resolved, That in placing upon our ballots the words of submission, "Prohibition of intoxicating liquors, Yes," we protest against the false statement of our principles and policy contained in those words, but which are truly stated in the words of the amendment itself, "The manufacture of and the traffic in intoxicating liquors to be used as a beverage are forever prohibited."

Resolved, That we recognize the necessity of religious, moral, social, and educational means in forming the foundations of political action for the suppression of the liquor crime, and we tender to the Women's Christian Union and other associations in those departments of effort our most cordial sympathy and support.

The ticket nominated is as follows:

Governor, Ferdinand Schumacher, of Summit; Lieutenant-Governor, H. T. Ogden, of Hamilton; Supreme Judge (short term), Z. C. Payne, of Franklin; Supreme Judge (long term), D. C. Montgomery, of Knox; Clerk of Supreme Court, J. H. Blackford, of Preble; Attorney General, J. W. Roseboro, of Fulton; Auditor of State, Gresham Leas, of Hardin; Commissioner of State, J. M. Whiting, of Huron; Commission of Common Schools, H. A. Thompson, of Franklin; Member of Board of Public Works, G. C. Cruzan, of Hardin; State Executive

Committee, G. P. Burwell, of Cuyahoga; A. Alderman, of Morgan; D. N. Trobridge, of Lucas; J. W. Sharp, of Delaware; Jay Odell of Cuyahoga.

FORFEITED DIAMONDS.

What It Costs to Get Caught Smuggling.

NEW YORK, June 15.—The question of the forfeiture of forty-three diamonds was before Judge Brown and a jury, in the United States District Court in the suit of the United States against Fanny Sussman. The principal witness for the Government was Captain Brackett, the chief of the special agents of Treasury Department for New York. He said that in February last he received information that a woman was offering diamonds for sale considerably below their value. On the following morning he met this woman in the store of a diamond broker in Nassau street. She had the diamonds with her. He asked her where she got them and told her who he was. She replied, "Well, I suppose I must pay duty on them. It will be ten per cent, on their value, and that will be about \$400."

Brackett testified that he replied that it was too late to talk like that, and asked her to accompany him with the diamonds to the Custom-house. If the stones had not been smuggled he would return them to her. If the duty had not been paid, however, he would seize them. She went with him to the Custom-house, and there before General Palmer, who was in charge of the law department, she said that she had come to arrange to pay duty on the diamonds. The diamonds were seized by the Government officers.

Expert testimony was given that the value of the gems was \$4,784, and that they were of foreign production. This closed the case for the Government.

The defendant said her maiden name was Fanny Sussman. On May 18, 1882, she went to Europe and returned on August 20, in the steamer Edam from Amsterdam. She arrived September 15, and did not bring any jewelry with her. The diamonds were given to her sister by her father, thirteen years ago, and her father at the same time gave her a little jewelry and a gold watch and chain. Her sister was in some pecuniary trouble as to real estate and the witness undertook to sell the diamonds for her. As she knew nothing about their value, a friend of hers, Mr. Cohen, went with her. They showed the jewels to a firm in Nassau street, who told her to come the next morning. She did so and then she saw Captain Brackett, who told her that the diamonds were smuggled and that he should seize them. She invited the captain to go into another room as she wished to explain to him that her real name was Hockman.

After deliberating about half an hour the jury returned a verdict for the Government, declaring that the diamonds should be forfeited.

ALFONSO AND LUIS.

Their August Majesties Have a Picnic.

MADRID, June 15.—A year or so ago the King of Spain visited the King of Portugal upon the occasion of the opening of a more direct railroad route between the capitals of the two countries. Prior to that time the route was very circuitous between Lisbon and Madrid, but now a new and direct railroad, which has been accomplished by tunneling the mountain ranges, connects them by the shortest possible distance. King Alfonso rode over the route upon that occasion, and now King Luis has returned the compliment, and his visit to Madrid has been the occasion of a holiday for the Spaniards, who are as fond of entertainments as the French. Though both the Powers are little ones they made no mean display. The Municipality of Madrid erected a handsome pavilion in which the two Queens, Christina and Maria Pia, were enthroned in state and received their royal husbands, who galloped up before them and made their devoirs in a manner worthy of the old days of chivalry. Then there was a procession of the Spanish army, 15,000 strong. The men looked healthy and useful, marching with a swinging step and in fairly good time. The mountain and field batteries deserved very high praise. It was noticeable that about half of the light field pieces were of compressed bronze, manufactured in Seville, and it is stated that they give results superior to those of Krupp steel. The march was followed by a banquet, at which their majesties pledged each other's health and the prosperity of the two Kingdoms. The next day the royal families went off on a picnic. The weather was fine. There were no Nihilists threatening to blow them up. The Black Hand did not menace them. They had a pleasant day, and the next day Luis and Maria Pia and the children started, bag and baggage, home again. Courtesies are rare between the two powers, for the reason that the Portuguese are afraid of a possible union of the two nations.

The Obnoxious Trade Dollar.

NEW YORK, June 15.—A meeting of wholesale receivers of dairy and other country produce was held recently at the Mercantile Exchange rooms, at which a committee was appointed to secure signatures to a pledge not to receive trade dollars at par. This committee has obtained the pledges of a majority of the members of the trades interested not to receive the objectionable coin from their customers after July 1, except at the current rate of discount. The extent to which New York wholesale produce dealers have been inundated with trade dollars is said to be a serious grievance. Their customers are the grocers and retailers, who get the coins from the general public and pay their bills with them, leaving the wholesale men to sell silver at a discount to brokers. These very brokers, it is said, sell the coins to factories and concerns where large numbers of persons are employed to payoff their hands, and so the circle is kept up week after week.

The excursion was the first Chinese picnic that ever took place in this country. It was under the conduct of the Baptist Chinese Young Men's Christian Association, and was managed by Der Ah Wing, a young Chinese convert, and Mrs. Mary Augusta Carto, a Chinese mission teacher. On the island the Chinese musicians bent their energies to the interpretation of a surprisingly intricate Mongolian opera. The band belonged to the Mott Street Chinese Masonic Temple. One beat the "koo" drum, and another the "pankoos" drum, the latter being a repository of excellent imitation thunder, formed by stretching sheepskin over a barrel. The "teibord" cymbals were clashed, and the "low" gong, suspended from the ceiling by a green ribbon, was thumped in unison with the "eotchei" trumpet and the "yeo sing" and "sam you" fiddles. The classic-featured leader sang softly and plaintively while he wildly banged the copper "sappan" also. With oriental fireworks, paper napkins, and Chinese music, they did the picnic in American style.

ANOTHER OCEAN SECRET.

The Steamer Africa, With Fifty Souls on Board, Given Up for Lost.

NEW YORK, June 15.—The steamer Africa left this port on March 27 for Leith and Hamburg. As she has been out seventy-six days, and no tidings received concerning her, all hope of her being yet afloat has been abandoned. There is no record of a steamer ever having reached the other side on a similar voyage after having been overdue the length of time the Africa has. For some time past the marine underwriters have not accepted the heavy premiums for insurance offered by the shipper. Captain Buchholz was the name of her commander. He belonged to Hamburg, and was forty-six years old. Although he had commanded steamships only a few years, he was considered a competent navigator, having had a long experience as captain of sailing vessels, and been mate of the Polynesia of the line to which the Africa belonged when the former vessel was under the command of Captain Winkler, the commodore of the fleet.

The names of the other officers and the crew of the ill-fated vessel are unknown to the consignees, nor their exact number, but it was calculated that there were between fifty and sixty souls on board. She was a comparatively new boat worth from \$100,000 to \$150,000. She had been to the East Indies once and made several trips across the Atlantic. Her first voyage was from Rio Janeiro to this port with a cargo of coffee.

As to the cause of the loss of the Africa only theories can be advanced, owing to the lack of any certain knowledge on the subject. Her consignees attribute it to collision with another vessel or with ice. The latter is considered the more probable, as it is unlikely that two vessels should come into collision even in midocean and avoid either, or of their crews, be discovered.

At the time the Africa left, March 27, there were a number of icebergs reported as having been met on the voyage by incoming vessels, and it is thought that the Africa ran into one of these floating ice mountains and foundered with all on board. Other shipping men think that she may have become disabled through some injury to her propeller, and been unable by means of her sailing powers alone to live through some storm that overtook her. The consignees have given her up for lost.

MRS. SULLIVAN

Gives Her Sluggish Husband a Good Character.

BOSTON, June 15.—Mrs. John L. Sullivan has taken up the cudgels in her husband's behalf. She called at one of the newspaper offices and asked that she be permitted to personally deny the published statements. She said she had been married to Mr. Sullivan two years, and during that time he had been a very kind husband and had never abused her in any way. "His great misfortune," said Mrs. Sullivan, "is that he has a heart too big for his body, and is so lavish in entertaining his friends that he sometimes oversteps the bounds of prudence in his habits of sociability and is then a little morose and sulky. He has never scolded nor abused me in any way, and I think it is outrageous to publish the stories I have seen in some of the New York and Boston papers. This is not the first time he has been assailed by means of false reports, and I can account for it only on the theory that he has offended some one who adopts this method of retaliation. I certainly do not look like a person who was shockingly beaten a few days ago.

Mr. Sullivan has never raised his hand to me. I think him to much of a man for that; and if he ever had done so, I am too much of a woman to make a complaint against him in court. I would simply pack my trunk, order a carriage, and go to my home in Providence. This matter has worried me very much. I don't know what my friends in Providence will think of the report."

Mrs. Sullivan looked and talked like a woman who felt that her husband had been maligned without cause, and who desired to clear his reputation from the charge of unmanliness, as well as to prove that she would not tolerate ill treatment.

PIONEER CHINESE PICNIC.

The Celestials Conforming to American Customs.

NEW YORK, June 15.—Brass cymbals clashed loudly and huge firecrackers exploded tremendously at the Battery while the excursion steamer Long Branch lay anchored at the barge office pier and received on board a gay company of Chinamen in holiday garb. Caucasian men and women, toddling babies and boys and girls flocked after the Celestials. At half-past 8 o'clock the vessel, with the crimson and yellow triangular flag of China flying from her mast, tooted her whistles shrilly, and started on the "Oriental Pioneer Excursion" up the Hudson to Lona Island.

The excursion was the first Chinese picnic that ever took place in this country. It was under the conduct of the Baptist Chinese Young Men's Christian Association, and was managed by Der Ah Wing, a young Chinese convert, and Mrs. Mary Augusta Carto, a Chinese mission teacher. On the island the Chinese musicians bent their energies to the interpretation of a surprisingly intricate Mongolian opera. The band belonged to the Mott Street Chinese Masonic Temple. One beat the "koo" drum, and another the "pankoos" drum, the latter being a repository of excellent imitation thunder, formed by stretching sheepskin over a barrel. The "teibord" cymbals were clashed, and the "low" gong, suspended from the ceiling by a green ribbon, was thumped in unison with the "eotchei" trumpet and the "yeo sing" and "sam you" fiddles. The classic-featured leader sang softly and plaintively while he wildly banged the copper "sappan" also. With oriental fireworks, paper napkins, and Chinese music, they did the picnic in American style.

NO PORK FOR TURKEY.

But Then Turkey Never Had Any of It.

WASHINGTON, June 15.—Minister Wallace gets his name into print once more by announcing that the Turkish Government has decided to shut out pork from that country. This is bad for Turkey. So far as this country is concerned it will probably not make much difference in the matter of direct shipments. An examination of the reports by the Treasury Department for the past year shows that among millions of dollars worth of American products shipped from this country direct to Turkey there was not a single dollar's worth of pork or hog products of any kind nor even a single pound. In that year this country, as shown by Chief Niemo's able and exhaustive reports, exported to Turkey, direct agricultural implements, manufactures of cotton, manufactures of iron, manufactures of wood, printing presses, paper, petroleum (20,000,000 gallons), sowing machines, pianos, household furniture, lamps, woodenware, machinery, bread and biscuits, cheese, sugar, tobacco, spirits, shot, cartridges, shells, drugs, perfumery and stationery, and yet not a pound of hog product. The Mohammedan religion, which prohibits the eating of pork as strictly as does that of the Hebrews, appears to extend its influence over the 15,000,000 of non-Mohammedans in Turkey quite as effectively as over the 25,000,000 who submit to its faith, so that it is difficult to see what difference this order by the Porte is likely to make, except in its moral effect in increasing the prejudice against the hog.

Coming Trial of Frank James.

ST. LOUIS, June 15.—Chas. P. Johnson has returned from Gallatin, where he has been to see his client, Frank James, whose case is set for trial Monday. As both sides are ready, there is no possibility of further postponement. The trial is expected to run about ten days. James will be defended by Mr. Johnson and John M. Glover, of St. Louis; Garner, of Ray, and Seaver, of Independence. The State will be represented by Circuit Attorney Wallace, of Kansas City; Prosecuting Attorney Hamilton, of Daviess, and Judge Shanklin of Davies. There are three indictments pending against the outlaw in Daviess county, but the one for which he will be placed on trial Monday is the killing of Conductor Westfall and a passenger on board the train at the time of the Winsor robbery. Dick Liddell passed through the city Monday evening in company with Mr. Wallace, on his way from Georgia to Gallatin, to give his testimony against James. He is the witness on whom the State relies for a conviction. Liddell was under sentence for robbery in Georgia, and the Governor refused to pardon him. A stay of execution was obtained by Mr. Johnson through Sheriff Timberlake and Craig, who secured bond for Liddell, to allow him to come to Missouri and testify. Mr. Johnson reports James looking well, though a little restless as a result of his confinement, and says that his wife is as faithful and attentive as ever.

Not a Dollar of It Yet Sent to the Irish.

NEW YORK, June 15.—A meeting of officers of the Convention of Irish Societies in this city will be held in East Forty-eighth street this evening. At this gathering an animated discussion is expected, owing to the dissatisfaction existing among the members of the different organizations over the retention of the money collected at Jones' Wood on St. Patrick's day for the relief of the suffering poor in Ireland. Not one dollar of the amount has yet been transmitted. Several meetings of the different societies have been held recently and resolutions were adopted calling on the county officers of the convention to transmit the money forthwith. If some action is not taken at this evening's meeting in that direction a meeting of delegates of the different societies will be called to compel the trustees to send the money without further delay.

Postal Thieves Captured.

CHICAGO, June 15.—Postoffice Inspector Henshaw thinks that the results of his northern trip will be appreciated by the letter-writing public of the northwest. Besides arresting W. R. Souter, the thieving ex-postal clerk at LaCrosse, he detected Philip Gilbride, a clerk in the Minneapolis postoffice, rifling the mail. His peculiarities had been going on for a long time, and are supposed to amount to a large sum in the aggregate. He pleaded guilty. Souter was retained in the railway mail service by congressional influence for a long time, in the face of protests of Superintendent White. He was finally discharged, when the postoffice inspectors added their condemnation of him to that of his superior officer.

Carefully Arranged Suicide.

BRIDGEPORT, ALA., June 15.—Mrs. Wheeler, wife of Rev. J. H. Wheeler, deceased, went to the orchard, climbed to a suitable limb, and pruned the leaves and small branches off. She then dressed in her best suit of clothing and arranged her toilet as carefully as possible. Being unable to procure a rope she made one of a hank of yarn. This she securely tied to the limb of the tree, formed a noose at one end, and encircling her neck, sprang forward. She fell five feet, and died of strangulation. She leaves behind five orphan children. The Coroner's jury returned a verdict of mental aberration.

Labor Unions Denounced.

MONTRÉAL, June 15.—The Archbishop of Quebec has issued a mandate disowning any connection by his flock with secret societies. His Grace includes labor unions in the category.

A KING INTERVIEWED.

The Italian Monarch Would Like to See the World as a Reporter—Church and State—Madagascar Mediation.

ITALY.

NEW YORK, June 15.—A cable to the Herald from Paris says: Our Rome correspondent sends the following:

King Umberto gave the Herald correspondent half an hour's audience at the Quirinal this afternoon, in the course of which His Majesty frankly discussed various matters interesting to Italy and to the world. Speaking of the Vatican he declared he had the sincerest respect for the person of the Pope and received a reconciliation between Church and State seemed so distant. "If the Pope were to leave his retirement for the streets of Rome I believe he would meet with the utmost deference."

Turning to foreign questions, he assured me it was his only desire that his kingdom should live in peace with all men. He had no hatred of France, or any other country.

"I have no ambition save to diminish taxation, which is very heavy, and retain what we have won since Italy became united. We have no selfish ambition. When a people wish to

FRESHLY GATHERED.
Accidents, Crimes, Fortunes and Failures.

At New York, Belknap's paint factory and Kaufman's britannia warehouse burned. Loss, \$15,000.

At Halifax, the Grand Lodge of Good Templars adopted the reports of the committee on the color question, rejecting in the vindication of the fundamental principles of the Order by the institution of the order in fourteen out of fifteen Southern States in America. The session then closed.

At Princeton, Iowa, John W. Walker, capitalist and ferryboat owner, was seriously wounded and his wife and mother-in-law probably fatally injured in a runaway accident. They were out riding, when the horse ran away, ending with plunging over an embankment.

Joseph Copper, a deaf mute, living five miles north of Nodellsburg, Ind., last evening shot his sister-in-law three times in the neck, having previously threatened to murder her, and afterwards shot himself three times in the head. The suicide will die, and, probably, also his victim.

A terrible affray, resulting from a trespassing on property, occurred between the Thompson and Surrall families near Utica, Miss. A number of shots were exchanged, and W. J. Thompson was killed and his son severely wounded, and Chas. Surrall fatally shot.

News is received here that Peletown, a small village in the interior of Iowa, was almost completely blown away by a tornado Wednesday night. Only one house was left standing, and that, singularly enough, was on a hill. No loss of life is reported. No further details came to hand up to 10 o'clock this morning.

MIRACULOUS ESCAPE.

Wreck on the Cincinnati Northern.

CINCINNATI, June 15.—The train on the Cincinnati Northern (Toledo, Cincinnati & St. Louis Narrow-gauge) which left this city at 2:13 p. m. while rounding a curve near Kenney Station, left the track. No lives were lost, but destruction of property to a large amount resulted. The locomotive was piled together ready for a junk shop, and while the train-men and passengers were lamenting the death of the engineer, that worthy individual crawled from beneath the wreck and calmly inspected himself for injuries, without discovering any material damage. Considerable delay will result in clearing and repairing the track.

One Useless Navy to be Sold.

WASHINGTON, June 15.—Upon his return to Washington, Secretery Chandler will advertise for sealed proposals for the purchase of two ironclads, two iron and twenty-six wooden ships, which have been condemned by the boards of inspection as unfit for further naval service. The following vessels now at Mare Island are included in the list: The Benicia, Narragansett, Nyack, Saug, Tuscarora and Albatross. The remaining vessels are at the Eastern and Southern yards. Proposals for purchase will be received until September 15.

Expelled from the Baptist Ministry.

PITTSBURG, PA., June 15.—A chronicle of Pittsburg, Pa., dispatch says the Monogahela association of the Baptist Church after hearing the charges against the Rev. R. C. Morgan, a leging malicious and general lying, rending the church into two parties by unjust rulings, indecorous and grossly immoral conduct, unanimously sustained the charges and excommunicated R. C. Morgan from the Baptist Church.

THE DAILY BULLETIN.

SATURDAY EVENING, JUNE 16, 1883.

ONCE again please make a note,
Of rumor in the air,
That lest the people pony up,
There won't be any fair.
So straightway go down in your clothes,
And do it quickly too,
That everybody here may know
There's nothing mean in you.

RASPBERRIES have appeared in this market.

The streets are being repaired in many places in the city.

Isn't it about time the open air concerts were beginning?

Good butter was sold in Maysville this week at twelve cents a pound.

The steamer Handy, now at Cincinnati undergoing repair, is expected to resume her place in this trade next week.

The farmers report that there has been a great improvement in the appearance of the wheat during the past ten days.

The report that typhoid fever prevails in Maysville is without foundation in truth. There is not a single case in the city. The general health of the people is better than usual.

The much talked of and widely known case of the Commonwealth vs. Thomas Cummins has been settled at last. The Court of Appeals, whether it had been taken, affirmed Judge Cole's decision, on last Thursday. *Requiescat in pace.*

A GENTLEMAN who met Dr. G. T. Gould, of Millersburg, a few days after the unfortunate occurrence on the train, heard him say that he did not know Elisha Green was a minister of the Gospel. That is that much in Dr. Gould's favor.

A FAMILY of Arabs, consisting of father, mother and child, were in Maysville yesterday working the city as beggars. They were odd looking people and attracted much attention. They were natives of Alexandria, Egypt, and the man had been a sailor on the Mediterranean sea.

The stockholders of the Maysville Ice Company met on Friday night and elected the following board of directors: C. B. Pearce, A. R. Glascott, L. W. Robertson, W. S. Frank, T. J. Chenoweth and C. S. Leach. Mr. A. R. Glascott was elected President, W. S. Frank, Treasurer and C. S. Leach, Secretary and Superintendent.

ONE of the gentlest horses in the city that we know of is one that belongs to Mr. Sam. M. Hull, of East Maysville. The other day a buggy to which it was attached was run into by another vehicle, and although the buggy was upset and broken to pieces the horse neither kicked nor ran off but walked a short distance away as though such things were everyday occurrences. That animal is not for sale.

A DISPATCH from Catlettsburg to the Commercial-Gazette says:

It is a well known fact that last October, just before the trial here, Neal and Craft's friends procured several guns of most improved pattern, and still have them at their homes. It has just been told to day that Mrs. House, the woman who married Ellis Craft, went to Mr. Gilmore about two weeks ago, the first time since the marriage, through a near neighbor, and inquired very particularly about jewelry worn or owned by Fannie. She described a ring owned by her daughter, also a bracelet worn on the same occasion, as some school exercises, but failed to tell that she was married, and was born from her married sister. The next day this old woman came to Catlettsburg with her husband and had a consultation with Tilman Craft and Burnett. This gave Burnett his jewelry theory. She lost no jewelry nor owned any, except a plain gold ring. Mrs. House was very anxious to find out whether the ring had any initials on it.

Messrs. J. C. Owens & Co., as an addition to their coal elevators, are building a bin that is sixty by twenty-four feet, with the capacity of holding ten thousand bushels of coal. With the present facilities four thousand bushels can be taken each day from the boats at the river, and the bin can thus be kept full at all times, so that there will be no delay in loading wagons. The improvement is a very substantial one and will cost a considerable sum of money. Messrs. Owens & Co. handle the best grades of Pomeroy, Semicannel, Pittsburgh and Anthracite coal and have on hand at present about 150,000 bushels. They enjoy a large trade which is constantly increasing.

By the excellent manner in which they performed their exercises in recitation and elocution, on Thursday, the young ladies of Miss Purke's school gave evidence of the careful training to which they had been subjected as well as to their own proficiency. The class in music, taught by Miss Annie Albert, reflected great credit on their accomplished instructor. In the pronunciation of German the students of that language were remarkably correct. An educated German present said that he could easily have imagined himself in the presence of German girls, so beautiful and exact were the recitations. The visitors present seemed all very much gratified at the evident progress of the pupils.

A Child's Death.

We chronicle with sincere sorrow the accidental death by drowning, of Isaac Morris Lane, an interesting little son of Mr. I. M. Lane, on Friday afternoon, in a small fish pool in the yard of the Rev. Father J. B. Glorieux's residence on Limestone street. The child, which was only two and a half years old, had strayed into the yard in the morning, attracted by some work that was being done by John King. In the afternoon it returned during the absence of Mr. King, and was drowned, it is thought, while trying to catch, with its hands, some of the fish that was in the pond. The remains were recovered within half an hour after the accident occurred by Master Thomas Green, and although every effort was made for resuscitation by Doctors McGranahan and Strode their work was in vain. An inquest was held by Coroner Cockerell and a verdict of accidental drowning was rendered. The little fellow was a remarkably interesting child and the idol of his parents, who in their terrible affliction have the heartfelt sympathy of the community. The funeral will take place from the family residence Sunday afternoon at two o'clock. The Rev. A. Boreing, of the M. E. Church will conduct the services.

Alleged Swindling.

A warrant was issued Thursday, for H. H. McPherson, who claims Covington as his home, charging him with obtaining money under false pretenses. The warrant was issued at the request of C. C. Cole, R. T. Watson and W. Ganly, of the Murphysville neighborhood. A few days ago, McPherson disposed of the exclusive right of selling a patent washing machine in this and Fleming counties to Cole and his party, who were to pay therefor the sum of \$350, \$310 of which was cash. About Wednesday last, Cole claims they got information that McPherson had previously sold his rights in this State under the patent to other parties, they immediately demanded a return of their money, which demand, was of course refused by McPherson. The young men then had a warrant issued as above stated. McPherson left the State on hearing the officers were after him. It is thought he went to Covington or Cincinnati.

The Churches.

There will be services at the Third street Presbyterian Church tomorrow morning.

Rev. M. D. Reynolds, who has been attending the commencement exercises at Millersburg, returned home Friday evening.

Rev. A. N. Gilbert will preach at Washington next Sunday afternoon at four o'clock, sharp. The subject will be "The New Birth."

The fourth quarterly meeting services of the M. E. Church, South, will be held to-morrow, Rev. J. W. Finch, Presiding Elder. Mr. Finch will take for his subject at the evening service: "Christ Contrasted with other inspired Teachers."

The Southern Presbyterians will worship next Sunday in the Baptist Church, morning and evening services conducted by Rev. S. H. Chester. Subject for morning: "Spiritual Worship vs. Ritualism." Subject for evening: "One thing thou Lackest."

Rev. A. N. Gilbert will preach at the Christian Church, Sunday morning, on "The Reasonableness of Faith in Christ." The subject of his Sunday night lecture will be: "Sins of the Tongue," embracing profanity, recounting improper stories, railing, slander, bitter fault-finding, &c. You are invited.

The meeting at the Beasley Creek Christian Church, that is being conducted by General R. M. Gano and Elder J. C. Frank, is going on with increasing interest. Quite a number have been added to the church. There were three baptisms yesterday. Mr. Henry Snoot, who is well known throughout the county, will be baptized after the morning service to-day. General Gano is a very able and gifted speaker. All should avail themselves of this opportunity to hear his ardent and eloquent appeals.

PERSONALS.

Mrs. Davis Anderson and son are the guests of the family of Mr. B. A. Walbridge.

Judge Cole is recovering from his illness and will soon be able to resume his duties on the bench.

Master Arthur Glascott will leave in a few days for Mt Carmel, where he expects to remain for several weeks.

Mrs. George H. Owens and children who have been visiting friends at Covington, returned home Thursday night.

Mrs. J. H. Wedding, of Manchester, Ohio, is visiting friends in East Maysville.

Mr. Newton Powell, one of the most correct and diligent young men in the city, has been selected to aid Postmaster Hutchins.

The work of draining the ponds at Second street extension is going on rapidly and satisfactorily.

COUNTY POINTS.

SHANSON.

Mr. Chas. Marshall has moved to Washington, and will make his future home with his uncles, Misses Phoebe and Mary Marshall.

A strawberry and ice cream supper will be given at the school house in this place on the 21st inst., for the benefit of the school house. Admission 10 cents.

MARYSVILLE.

"Romney" is still in quest of his Judith and offers a reward of \$500 for the safe return of his dog. Do not trust it to paper and ink, or if thou thinkst I am too quickly won't drown me and be perverse and say to thee nay then thou wot well, but else, not for the world,

Dr. Walter W. Dye, after four weeks' confinement at his home, near Fairview, with a broken thigh, has been removed to that delightful retreat. Foretold two months past, the village is to be inundated and covered by the old lots at home. The broken limb is knitting and strengthening and many prayers are ascending for his speedy recovery and restoration of his professional labors.

Within the last thirty days society circles west of us have been much disturbed by the advent of the brightest star of all from the State of Kansas. She is enthraling all hearts, and many do not care to be separated from her. When she returns to us many will be missives addressed in Diamond Spring, and more than one young man will at least desire to "go west" and grow up with the country.

Card.

MARYSVILLE, JUNE 14, 1883.

I, the undersigned, herewith, wish to express my sincere thanks to all the members of St. Patrick's congregation, for the numerous tokens of love and esteem tendered me on the occasion of my departure from Maysville. In a social manner I desire to thank Rev. J. B. Glorieux, the good sisters of the Convent, the young ladies of the Academy, the St. Patrick's and Total Abstinence Societies, the children of St. Patrick's school, and all who so kindly remembered me. I shall remember them in my daily petitions to God, and may He bless them apace and all.

The Equalization Board Hits Back.

Ed. Bulletin: "The ways and means committee report they found the assessors' book to be an unequal assessment, and state that in many cases property is assessed far below what it should be and is low and unequal." Yet the court did away with the little addition of about eight percent, that the equalization board added to the assessments and twenty-five cents to the tax-exempt. Surely the taxpayers now see that the equalization board were their best friends and in no instance do we think the property was too highly assessed, therein being a two-thirds valuation. It would be better for the credit of the city to have all property assessed to its real value (which is the law), then to assess it reduced and would show the social wealth and quiet taxes. To some respects the equalizers are like a man "waking neither sleep nor long for wisdom." Surely their prayers are answered. By publishing the tax book it is seen that the property in general is not assessed half its value, and in some cases not one-twelfth. The property listed at a fair value should be reduced, otherwise they will pay more than is to be whose property is listed at half price and less.

PERFECTION SAVES PRICE IN ONCE USING,

A Significant Marriage.
PARIS, June 16.—The marriage of Beatrice Rothschild to M. Maurice Ephrussi produced a tremendous sensation in Paris, and the accounts of the various splendors of the occasion, of the illustrious guests, of the incredible wealth and beauty, of presents, and the plutocratic marvels of the allied families, quite equal the stories of the Czar's Coronation.

The Ephrussis are in Eastern what the Rothschilds are in Western Europe, and the union is more significant and important than the weddings of half a dozen royalties. The Jewish temple on the Rue de la Victoire was besieged by over 2,000 guests in wedding attire, provided with cards of invitation to witness the religious ceremony of the marriage of Maurice Ephrussi, the banker, whose racing colors are well-known on the French turf, to Mlle. Beatrice Rothschild, daughter of Baron Alphonse. The synagogue was splendidly decorated with crimson and gold drapery in oriental profusion, rare exotics, plants and flowers. The bride is eighteen years of age, in figure petite and of a transparent complexion.

Baron Rothschild gave his daughter \$300,000 to buy furniture with, and \$5,000 a month to keep house. During the ten days preceding the wedding the bride received over 1,100 letters from destitute young ladies, asking alms, and there was no one but received an answer.

DR. GALLAGHER, WILSON, WHITEHEAD, AND CURTIN, SENTENCED FOR LIFE.

LONDON, June 15.—In the dynamite trials the jury returned a verdict of guilty against Dr. Gallagher, Wilson, Whitehead, and Curtin, and a verdict of not guilty in the case of Ansburgh and Bernard Gallagher. The four men found guilty were then sentenced to life-long penal servitude.

Dr. Gallagher protested his innocence. He said the time would come when the master would be set right before the world.

Dr. Gallagher kissed and shook hands with his brother and Ansburgh, Whitehead, Wilson and Curtin each shook hands with Bernard Gallagher, and kissed Ansburgh fervently. The convicts were conveyed to Millbank prison in a van. A mob hissed the police escort en route. The military guard at the prison had been strengthened in order to prevent any attempt at rescue. The sentinels have been furnished with ball cartridges.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Soother from Headache writes:

"AYER'S PILLS are invaluable to me and my constant trouble has never been so severe as when I have suffered from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak of their praise, and I always do so when occasion offers."

W. L. PAGE, of W. L. Page & Bro., Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS innumerable instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable."

J. T. HAYES.

Mexico, June 17, 1882.

The Rev. FRANCIS H. HARLOW, writing from Atlanta, Ga., says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the costive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.
